1 GENERAL INFORMATION	x																													
1.1 Introduction	x																													
1.2 Glossary	x																													
1.3 Legal framework	x																													
1.4	x																													
1.4.1 General remarks	x																													
1.4.2 Liability	x																													
1.4.3 Appeals procedure	x																													
1.5 Structure of NS	x																													
1.6 Validity and modification procedure	1.5																													
1.6.1 Validity period	x																													
1.6.2 Updating process	x																													
1.7 Publications	1.6																													
1.8 Contacts	1.7																													
1.9 Joint Board of Directors	1.8																													
1.10 Switchboards – international cooperation between Infrastructure Managers	1.9																													
1.10.1 Other rules	x																													
1.10.2	x																													
2 ACCESS CONDITIONS	x																													
2.1 Introduction	x																													
2.2 Network Statement amendments	x																													
2.2.1 Conditions for address to capacity	x																													
2.2.2 Conditions for access to the railway infrastructure	x																													
2.2.3 Licences	x																													
2.2.4 Safety certificates	x																													
2.2.5 Clear infrastructure	x																													
2.2.6 Provision of information and conditions	x																													
2.3 Framework agreement	x																													
2.3.1 Framework RUs	x																													
2.3.2 Contracts with non-RU applicants	x																													
2.4 Operational rules	x																													
2.5 Multimodal freeboards	x																													
2.6 Exceptional loads	x																													
2.7 Rolling stock acceptance assessment	x																													
2.8 Fleet accreditation process	x																													
3 ADMINISTRATIVE	x																													
3.1 Introduction	x																													
3.2 Description of network	x																													
3.2.1 Lines	x																													
3.2.2 Connected railway networks	x																													
3.2.3 Further information	x																													
3.3 Network description	x																													
3.3.1 Geographic identification	x																													
3.3.1.1 Track numbers	x																													
3.3.1.2 Track names	x																													
3.3.1.3 Distance and codes	x																													
3.3.2 Capabilities	x																													
3.3.2.1 Loading gauge	x																													
3.3.2.2 Weight limits	x																													
3.3.2.3 Line speeds	x																													
3.3.2.4 Minimum train lengths	x																													
3.3.2.5 Power supply	x																													
3.3.3 Traffic control and telecommunications systems	x																													
3.3.3.1 Signalling systems	x																													
3.3.3.2 Traffic control systems	x																													
3.3.3.3 Communication systems	x																													
3.3.3.4 Train control systems	x																													
3.4 Traffic restrictions	x																													
3.4.1 Environmental restrictions	x																													
3.4.2 Operational restrictions	x																													
3.4.3 Maximum axle	x																													
3.4.4 Tunnel restrictions	x																													
3.4.5 Noise restrictions	x																													
3.5 Availability of the infrastructure	x																													
3.6 Service facilities	3.5																													
3.6.1 Personnel facilities	x																													
3.6.2 Power supply	x																													
3.6.3 Marshalling yards and train formation facilities, including shunting facilities	x																													
3.6.4 Stabling sidings	x																													
3.6.5 Maintenance facilities	x																													
3.6.6 Other technical facilities, including cleaning and washing facilities	x																													
3.6.7 Reception and inland port facilities	x																													
3.6.8 Sand facilities	x																													
3.6.9 Refuelling facilities	x																													
3.6.10 Other facilities	x																													
3.7 Infrastructure development	3.6																													
4 CAPACITY ALLOCATION	x	The capacity allocation process for Corridor [Corridor Name] is described in Book 3 of this CID. For all other types of international capacity requests, the national NSs shall be consulted. For more information, please see Chapter 3 on Capacity Allocation in each NS.																												
5 SERVICES	x																													
5.1 Introduction	x																													
5.2 Minimum access package	x																													
5.3 Access to services facilities and supply of services	x																													
5.3.1 Passenger stations facilities	x																													
5.3.1.1 Passenger stations	x																													
5.3.1.2 Fleet terminals	x																													
5.3.1.3 Marshalling yards and train formation facilities, including shunting facilities	x																													
5.3.1.4 Stabling sidings	x																													
5.3.1.5 Maintenance facilities	x																													
5.3.1.6 Other technical facilities, including cleaning and washing facilities	x																													
5.3.1.7 Reception and inland port facilities	x																													
5.3.1.8 Sand facilities	x																													
5.3.1.9 Refuelling facilities	x																													
5.3.2 Provision of supply systems	x																													
5.3.2.1 Electricity	x																													
5.3.2.2 Other services	5.3.2.1-5.3.2.10																													
5.4 Additional services	x																													
5.4.1 Traction current	x																													
5.4.2 Services for trains	x																													
5.4.3 Ensure the navigational navigants and dangerous	x																													
5.4.4 Other additional services	5.4.4.1-5.4.4.12																													
5.5 Ancillary services	x																													
5.5.1 Access to telecommunication network	x																													
5.5.2 Provision of supplementary information	x																													
5.5.3 Technical inspection of rolling stock	x																													
5.5.4 Cleaning networks in passenger stations	x																													
5.5.5 Specialised heavy maintenance facilities	x																													
5.5.6 Other ancillary services	5.5.6.1-5.5.6																													
6 CHARGES	x																													
6.1 Charging principles	x																													
6.1.1 Minimum access package	x																													
6.1.2 Track access to facilities referred to in 5.3.1	x																													
6.1.3 Provision referred to in 5.3.2	x																													
6.1.4 Additional services	x																													
6.1.5 Ancillary services	x																													
6.2 Charging scales	x																													
6.2.1 Tables	x																													
6.2.1.1 Minimum access package	x																													
6.2.1.2 Track access to facilities	x																													
6.2.1.3 Supply of services referred to in 5.3.2	x																													
6.2.1.4 Additional services	x																													
6.2.1.5 Ancillary services	x																													
6.3 Precise location and conditions	x																													
6.3.1 Non-scope charges	x																													
6.3.2 Conditions list	x																													
6.3.3 Reduction fee for framework agreements	x																													
6.3.4 Other	x																													
6.4 Performance scheme	x																													
6.5 Changes to charges	x																													
6.6 Other arrangements	x																													
NS additional chapters	x/x																													
	x.x.x.x																													
	Track update: 12-12-2018	Track update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019	Last update: 00-MM-2019

Legend

x	Content exists/link to relevant chapter is entered
x	Content does not exist
5.3.5	Content exists in the other chapter of the NS (in this example in chapter 5.3.5)

Note

If the content exists but in a different chapter, then insert the chapter number in the relevant cell.
In the special case of chapters 5.3.2, 5.4.4 and 5.5.6, which correspond to all other service categories that are not standard, include all the applicable chapter numbers.
If an INS/BS/ NS includes additional chapters, it can add this information in the last row of the table in order to provide a complete overview of its NS.
*The last date when the INS/BS concerned updated the information in the table.
